## NEXUS CONDUCTS SITE VISIT TO MUSKMELON FARM

Following the introductory talk by Superfish Growers about three weeks ago, Nexus organized a site visit to its muskmelon farm at Tungku on 29th July where associates were able to learn first-hand how the fruits are grown, harvested and packed for export. 30 associates from both Nexus and Evolve.Me led by CEO Hjh Nor Azura Hj Mohd Tahir and directors were briefed throughout the visit by its co-founder and CTO, Wei Lee Sheng. Superfish will be introducing a contract-farming model for large-scale chili plantation using the greenhouse technology.

## MENG-GAME INTERNAL TOURNAMENT

The Emerging Business unit at Nexus focuses on exploring, digitalizing & innovating different products and services (such as app development, agriculture, e-commerce, etc.). One of the areas that the team is looking into as a project and product is eSports. As an introduction of the eSports sub-unit to Nex.U.s associates, an internal eSports tournament committee is organising Meng:Game. It is Nexus Chairman's vision for Brunei to have its own eSports Company to cater for the ever-increasing local market demand for eSport related products and services. Meng:Game team's aim is to be the premium hub for eSports in Brunei & the ASEAN region.

The first internal tournament open to all Nex.U.s associates was organized on Friday, 24 July. There is a plan to hold it every Friday, with each week a different game, on different platforms (PS4, PC, mobile, etc.). External tournament is in the pipeline. It will be open to the public with registration fees applicable. R&R will vary for each game and platform. There will exciting prizes in the future (internal and external) tournaments.

## BUILDING A LINKEDIN PROFILE LIKE A PRO

A well-written CV and profile is important if you want to get noticed by prospective employers. On 27th July a two-hour workshop on how to build a LinkedIn profile like a pro was conducted by Reeda Malik, Director of Case Support which was attended by 35 associates from Nexus, DST DevCo and Evolve.Me.

## BEGINNERS AND INTERMEDIATE COURSES IN MICROSOFT EXCEL

*Some of the course attendees*

Our associates' readiness to undergo reskilling courses is most welcome as they get ready to embark on career change and potentially take up employment elsewhere. The upskilling and reskilling courses including the latest on Microsoft Excel organized on 21st and 22nd July, are aimed at preparing them for a future beyond Nexus. However, to succeed, they must continue to show full commitment and take charge of their own skills development.

Selamat Hari Raya
