KURSUS KEMAHIRAN JAHITAN DAN MANIK BEADING AND CROCHET COURSE

Perserta yang berminat melakukan jahitan mengait dan manik sebagai salah satu aktiviti masa lapang berpeluang menyertai kursus kemahiran dianjurkan oleh Bahagian Pembangunan Peniagaan. Bermanik adalah kraftangan perhiasan berbentuk kaitan benang manik-manik sementara hasil jahitan mengait diperbuat daripada kain bertekstur menggunakan jarum cangkuk.

Associates keen to do beading and crochet as a pastime activity had the opportunity to learn the skills during an in-house course organized last week by the Business Development team. Beading is the craft of stringing beads together to make jewelry or other decorative items while crochet is a handicraft in which yarn is made up into a textured fabric by means of a hooked needle.
