PERMAINAN ATAS TALIAN CALL OF DUTY WARZONE BERAKHIR CALL OF DUTY WARZONE ONLINE GAME COMES TO A CLOSE

Kejohanan dalam talian pertama dianjurkan di negara ini telah berlangsung baru-baru ini dan Pasukan Meng-Game di bawah unit Emerging Business, Nexus, bangga dapat menjayakannya. Permainan The Call of Duty Warzone, melibatkan persaingan antara satu sama lain secara pasukan atau solo untuk menjadi wira terakhir dalam permainan. Konsep permainan ini sama seperti permainan pertempuran Royale lain seperti Fortnite dan PUBG.

The first ever online tournament organized in Brunei was held recently and the MenG:Game Committee under the Emerging Business unit at Nexus, is proud to organize this. Known as The Call of Duty Warzone, the online game involved players competing against each other either as a team or solo to become the last person/team standing. The game concept is similar to other battle Royale games such as Fortnite and PUBG.

Untuk kejohanan ini, format Trios digunakan dan dianjurkan dalam 2 bahagian. Bahagian pertama adalah pusingan penghapusan di mana pasukan diberi masa 3 jam untuk mencuba dan mendapatkan seberapa banyak markah yang mereka boleh, dengan HANYA 3 permainan tertinggi dikira untuk keseluruhan markah. Hanya 4 pasukan dengan markah teratas akan mara ke perlawanan akhir. Perlawanan akhir selama 2 jam, dengan mata sebelumnya ditambah dengan markah pasukan dari separuh masa pertama.

For this tournament, a Trios format was created and the tournament was held into 2 parts. The first part was an elimination round where teams are given 3 hours to try and get as many high-scoring games as they can, with ONLY their Top 3 matches counting towards their overall score. Only 4 teams with the top scores will advance to the finals. The final was timed for 2 hours, with the previous points added to the teams' scores from the first half.
