

LANGKAH-LANGKAH SEKATAN COVID-19 DILANJUTKAN HINGGA 3 OKTOBER 2021 *COVID-19 CONTROL MEASURES EXTENDED TO OCTOBER 3, 2021*

Brunei Darussalam telah melanjutkan tempoh langkah-langkah sekatan untuk membendung penularan Covid-19 untuk tempoh sebulan lagi sehingga 3 Okt. Langkah-langkah kawalan itu mula dilaksanakan pada 7 Ogos tetapi dilanjutkan pada 21 Ogos hingga 4 September. Dengan mengambil kira keadaan semasa yang masih belum stabil di negara ini dan penangguhan pemberian vaksin dos pertama dalam Program Vaksinasi Kebangsaan, langkah-langkah kawalan dilanjutkan sehingga 3 Oktober. Ini adalah untuk membolehkan langkah-langkah kawalan yang dilaksanakan untuk memberi kesan positif kepada pengurangan penyebaran jangkitan. Dengan pelanjutan ini, semua kakitangan dan rakan-rakan sekerja Nexus akan terus bekerja dari rumah sehingga notis selanjutnya dan pejabat-pejabat masih ditutup dengan hanya segelintir kakitangan yang datang dari semasa ke semasa untuk membuat tugas-tugas penting.

Brunei Darussalam has extended the duration of the current restrictive measures to curb the spread of Covid-19 for another month until 3rd October. The control measures were first implemented on 7th August but were extended until 4th September. Taking into account the still unstable situation in the country and the postponement of the first dose National Vaccination Programme, the control measures are further extended until 3rd October. This is to enable the control measures implemented to have a positive impact on the reduction of the spread of infection. With the extension, all Nexus staff and associates continue to work from home until further notice and the offices remained closed with only a handful of staff coming in from time to time to do critical work.

Ruang-ruang pejabat yang kosong | Empty offices

Kawasan letak kereta yang sepi | *Deserted car parks*

Hanya kakitangan keselamatan bertugas secara bergilir 24/7 bagi memantau kakitangan yang datang kepejabat dari masa kesemasa
Only security personnel working on 24/7 shifts to monitor staff who need to come in from time to time

NEXUS TECH LAKSANAKAN LANGKAH KESELAMATAN SEMASA BERTUGAS DILOKASI

NEXUS TECH IMPLEMENTS SAFETY PRECAUTIONS WORKING ON SITE

Dengan lebih ramai yang terus bekerja dari rumah termasuk pelajar dan guru terus mengadakan kelas dalam talian, terdapat peningkatan yang mendadak bagi perkhidmatan jalur lebar berkelajuan tinggi dan penggunaan data sejak pandemik bermula. Nexus Tech sebagai salah sebuah syarikat yang ditugaskan oleh UNN kini sibuk menjalankan kerja-kerja penyambungan namun semasa menjalankan kerja-kerja tersebut, syarikat telah melaksanakan langkah-langkah keselamatan bagi melindungi kakitangan yang bekerja di lokasi serta pelanggan mereka dengan mematuhi prosedur keselamatan yang ditetapkan oleh Kementerian Kesihatan.

With more people continue to work from home including students and teachers doing online classes, there has been a huge increase in demand for high-speed broadband service and data consumption since the pandemic began. Nexus Tech as one of the contractors assigned by UNN has been busy carrying out home installations but while carrying out such works, the company has been implementing safety precautions to safeguard its team members working on site as well its clients by strictly adhering to safety procedures put in place by the Ministry of Health.

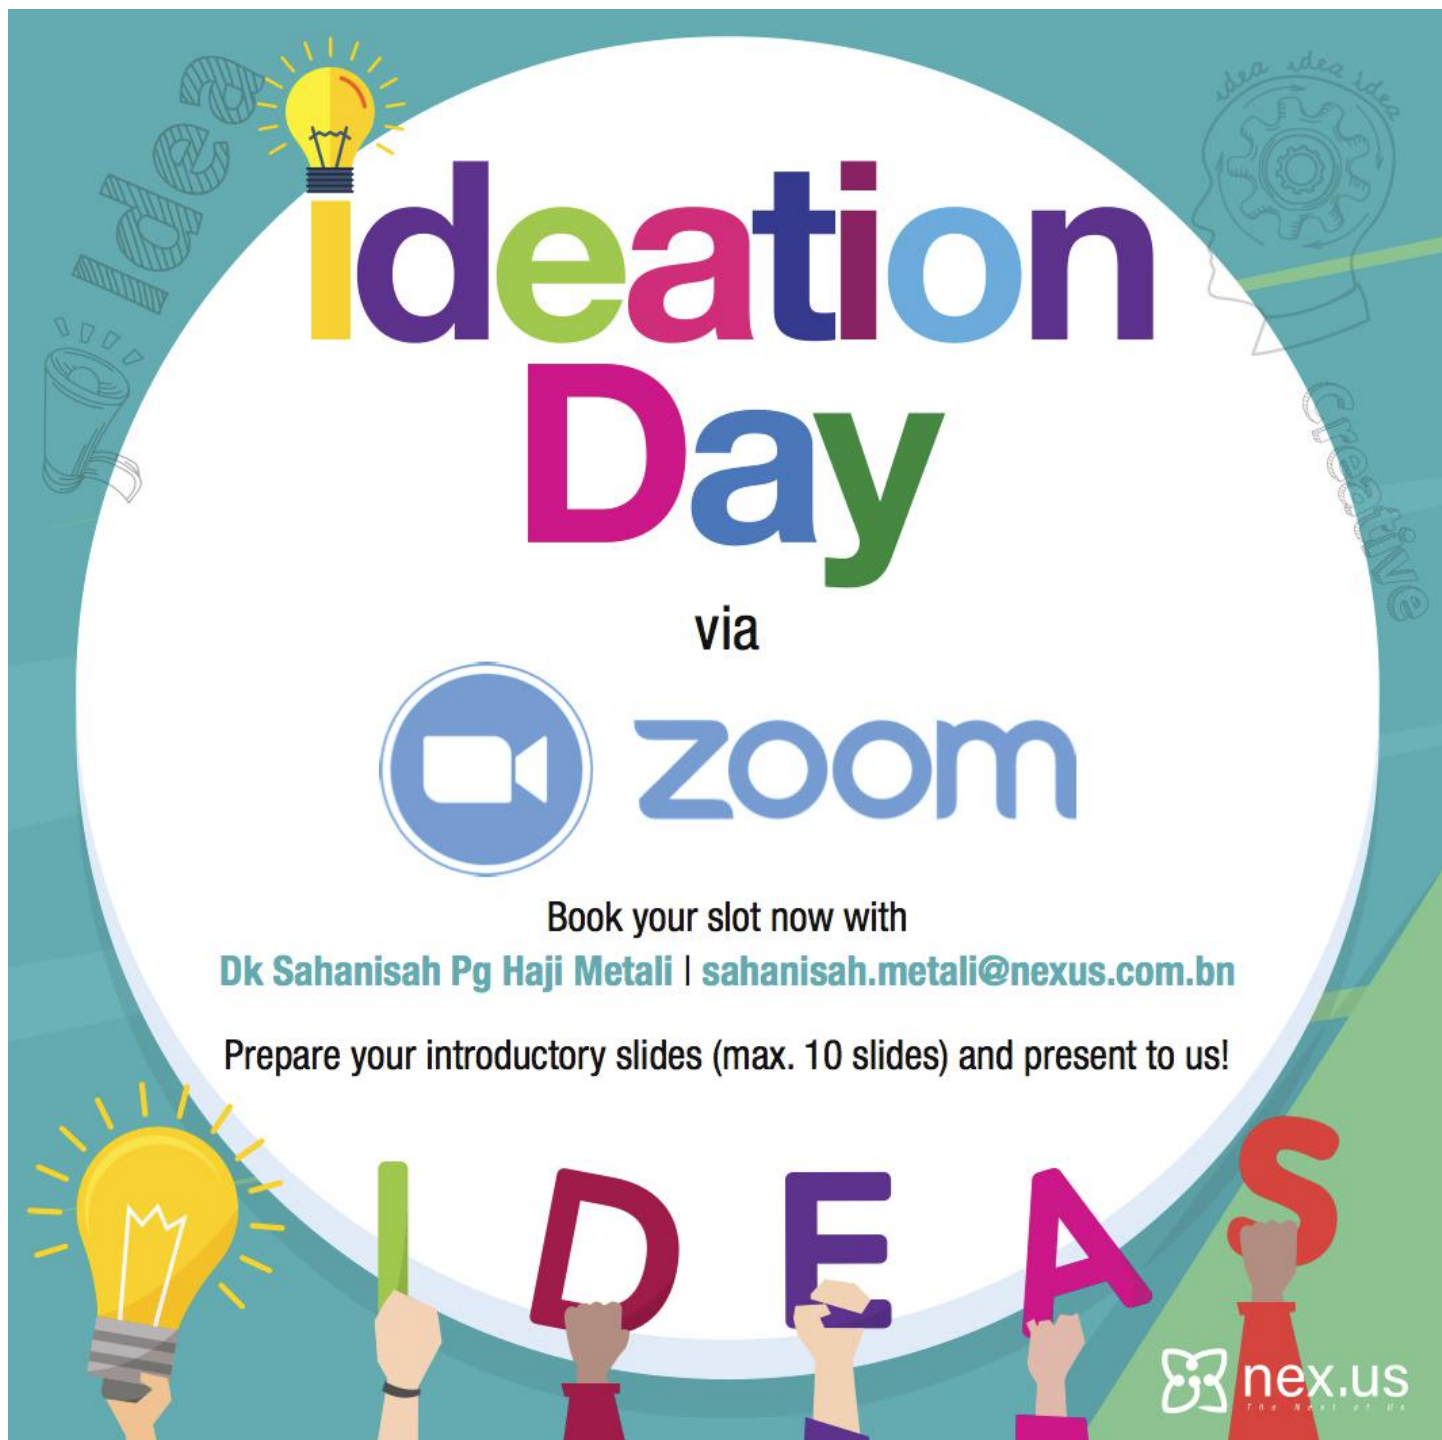

Semua peralatan, kenderaan dan kakitangan dibersihkan sebelum memulakan tugas dilokasi
Tools, vehicles and workers are sanitized prior to carrying out work on site

The poster features a central white circle on a teal background. At the top left of the circle is a glowing yellow lightbulb. The word "Ideation" is written in large, multi-colored letters (yellow, green, pink, blue, purple), and "Day" is in pink and green below it. Underneath is the word "via" and the Zoom logo. The background includes faint sketches of a lightbulb, a gear, and the word "Creative". At the bottom, several hands hold up large letters spelling "IDEAS", with a lightbulb on the left and the nex.us logo on the right.
