PROMOTING ENTREPRENEURSHIP AT NEXUS

With Covid-19 restrictions still in place and businesses are actively done online, our very own Nexus Entrepreneurial Team decided it's an opportune time to set up its own *nexgerai*, our version of Gerai Ramadhan Online. Kickstarted during the holy month of Ramadhan and continued during the Hari Raya festivity, *nexgerai* offers traditional Hari Raya delicacies, biscuits and cakes. Customers either self-pick up their pre-ordered food or opt for delivery service by runners with charges between \$3 to \$5 depending on location. Let's see how the team got the idea and brought this project to fruition.

Initial thought and brainstorming session

Conceptualizing and building the idea

With a break (or rather a nap) in between...zzzzzz

All good to go. Let's do it!
